Professional Summary

Full-stack engineer with 3+ years of experience building modern web applications using React, Next.js, and TypeScript, with strong focus on API-driven development, scalable UI systems, testing, and cloud-based deployment. Delivered production solutions across geospatial systems, biometric authentication, and secure payment workflows for government, healthcare, and e-commerce clients. Known for collaborating with product, engineering, and architecture stakeholders to design reliable features, improve code quality through reviews and testing, and support seamless delivery using CI/CD, Docker, and AWS.

Core Competencies: Full Stack Development • React / Next.js • REST APIs • Cloud Deployment • CI/CD • Testing & Quality • Team Collaboration • Agile Delivery

Technical Skills

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS, SQL, Dart

Frontend Frameworks: Angular (v17), React.js, Next.js, RxJS, Vue.js, Tailwind CSS

Backend & APIs: Node.js, Express.js, REST APIs, PostgreSQL, Redis, MongoDB, Firebase, Drizzle ORM

DevOps & Cloud: Docker, GitHub Actions, AWS (ECS), CI/CD Pipelines, Vercel, Hostinger

Specialized Technologies: OpenLayers GIS, SHP/GeoJSON Rendering, Biometric APIs, Aadhaar Authentication, Face Recognition, OAuth2/JWT, SAP BTP Extensions

Payments: Razorpay, CcAvenue

Testing: Jest, Karma, Jasmine, Postman

Tools: Git, Jira, Agile/Scrum, VS Code, IIS, Microsoft Teams

AI-Assisted Development: Claude, Cursor, GitHub Copilot, Google Antigravity

Experience

Maxbridge Solution LLP

Kolkata, India

Frontend Developer (SD-2)

May 2025 – May 2026

Promoted from Application Developer

March 2023 – April 2025

- Coordinated and mentored a 6-member engineering squad for the RCS Enterprise Suite; led recruitment drives and technical interviews, scaling team capacity by 40% while maintaining 95%+ sprint completion rates.
- Built scalable React / Next.js / TypeScript applications for enterprise workflows, integrating UI modules with secure authentication, role-based access, and backend services for 10,000+ users across state government clients.
- Delivered API-driven features with multi-stage approvals, reusable components, and workflow automation, improving reliability and maintainability across client projects.
- Developed and deployed cross-platform Flutter mobile applications (Android + iOS); integrated Razorpay and CcAvenue payment gateways with full store deployment.
- Built OpenLayers + Angular GIS modules to parse SHP files and GeoJSON for state government spatial data infrastructure planning.
- Integrated biometric hardware, Aadhaar-based authentication, and Face Recognition APIs, supporting 1,000+ daily secure employee authentications for NTPC/NSPCL (Government of India enterprises).
- Applied engineering best practices including code reviews, unit testing, performance optimization, and deployment automation to improve release quality and delivery efficiency.
- Collaborated closely with product managers, architects, and technical leads to translate business requirements into scalable, maintainable solutions.

Rolling Arrays

Mumbai, India

Associate Consultant

July 2022 – December 2022

- Developed custom UI enhancements within SAP SuccessFactors for enterprise HR clients, ensuring alignment with client workflows and branding guidelines.
- Built and deployed custom frontend modules via SAP BTP Extension Center, extending core Recruiting and Onboarding functionality for enterprise clients.
- Implemented data-binding logic using SAP OData APIs for real-time synchronization between custom extensions and the SuccessFactors core database.

Ayant Software Pvt Ltd

Kolkata, India

Team Leader — Promoted from Associate

January 2018 – February 2020

- Designed and administered technical screening assessments for frontend and full-stack developer candidates, evaluating proficiency across JavaScript, Angular, React, and web development fundamentals.
- Developed structured coding challenge frameworks and competency rubrics with senior engineers, standardizing the technical evaluation process and improving quality-of-hire consistency.
- Led end-to-end developer recruitment – sourcing, screening, and interviewing – and onboarded high-performing engineers into structured training programs, reducing time-to-productivity through clear onboarding documentation.
- Partnered with technical leads and project managers to define evolving skill requirements aligned with software delivery needs.

Key Projects

RCS Enterprise Suite | Office & Co-operative Management System

its4rcs.com

Next.js, React, TypeScript, RxJS, Dynamic Forms, PDF Engine

- High-security management platform for the Head of Co-operatives, built as Lead Developer of a 6-person team: custom email workflows, multi-stage approval system, and RBAC – reduced manual processing by approximately 40%.

NTPC Sanjeevani + NSPCL Niramaya | Hospital Management System

sanjeevaninew.ntpc.co.in, niramaya.nspcl.co.in

Angular, Custom CMS, Biometric APIs, Aadhaar Authentication, Face Recognition

- Full HMS with custom CMS and Biometric + Aadhaar + Face Recognition authentication, supporting 1,000+ daily authentications for Government of India enterprises. Live at sanjeevaninew.ntpc.co.in and niramaya.nspcl.co.in.

Arunachal Pradesh GIS Portal | Geospatial Data Analysis

apcis.in

Angular, OpenLayers, GeoJSON, SHP File Rendering

- SHP and GeoJSON parsing with interactive multi-layer visualization for government infrastructure planning.

PHED App | Water Services Utility

Play Store & App Store

Flutter (Dart), Razorpay, CcAvenue, Cross-Platform

- Dynamic form-driven mobile app with integrated secure payment gateways (Razorpay + CcAvenue), deployed live on both Android and iOS stores.

Get All Book | E-Commerce Mobile Platform

Play Store

Flutter (Dart), Firebase, State Management, Real-time Tracking

- Full-scale e-commerce app with cart, wishlist, and real-time order tracking, live on Google Play Store.

ApplyTrack | Full-Stack Portfolio Project

In Progress

Next.js 15, Node.js/Express, Drizzle ORM, Neon Postgres, Upstash Redis, Docker, GitHub Actions, AWS ECS

- Self-initiated full-stack application demonstrating backend and DevOps proficiency end-to-end: containerized services, automated CI/CD pipelines, and cloud deployment on AWS ECS.

Education

St. Xavier's College, Park Street

Kolkata, India

Master of Science (M.Sc.) in Computer Science — CGPA: 8.1/10

June 2020 – August 2022

- Best Project Award: COVID-19 Pandemic Prediction using Machine Learning.

Maulana Abu Kalam Azad University of Technology

Kolkata, India

Bachelor of Computer Applications (BCA)

May 2014 – July 2017
