Immediate Joiner | Open to Remote / Hybrid / Onsite roles across India

Professional Summary

Frontend-focused full-stack developer with 5+ years of production experience across enterprise web applications (Angular v17, React, Next.js, TypeScript) and cross-platform mobile apps (Flutter – Android & iOS). Delivered production systems across geospatial mapping (GIS/OpenLayers), biometric authentication (Aadhaar, Face Recognition), and secure payment gateway integrations (Razorpay, CcAvenue) for government, healthcare, and e-commerce clients. Led and mentored a 6-member engineering team, achieving a 40% team capacity increase and 95%+ sprint completion rate. Two Flutter apps live on Google Play Store and Apple App Store. Actively expanding backend/DevOps depth (Node.js, Express, PostgreSQL, Redis, Docker, AWS).

Technical Skills

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS, SQL, Dart
Frontend Frameworks: Angular (v17), React.js, Next.js, RxJS, Vue.js, Tailwind CSS
Mobile: Flutter (Dart), Cross-Platform Android & iOS, Android Studio, Xcode
Backend & Data: Node.js, Express.js, PostgreSQL, Redis, MongoDB, Firebase, Drizzle ORM
DevOps & Cloud: Docker, GitHub Actions, AWS (ECS, SAA-C03 in progress), CI/CD Pipelines
Niche / Rare: OpenLayers GIS, SHP/GeoJSON Rendering, Biometric APIs, Aadhaar Authentication, Face Recognition, OAuth2/JWT, SAP BTP Extensions
Payments: Razorpay, CcAvenue
Testing: Jest, Karma, Jasmine, Postman
Tools: Git, Jira, Agile/Scrum, VS Code, Vercel, Hostinger, IIS, Microsoft Teams
AI-Assisted Development: Claude, Cursor, GitHub Copilot, Google Antigravity

Experience

Maxbridge Solution LLP

Kolkata, India

Frontend Developer (SD-2) — Promoted from Application Developer, May 2025

March 2023 – May 2026

- Coordinated and mentored a 6-member engineering squad for the RCS Enterprise Suite; led recruitment drives and technical interviews, scaling team capacity by 40% while maintaining 95%+ sprint completion rates.
- Designed and built scalable Angular (v17) / React / Next.js / TypeScript systems for enterprise applications serving 10,000+ users across multiple state government clients.
- Developed and deployed cross-platform Flutter mobile applications (Android + iOS); integrated Razorpay and CcAvenue payment gateways with full store deployment.
- Built OpenLayers + Angular GIS modules to parse SHP files and GeoJSON for state government spatial data infrastructure planning.
- Integrated biometric hardware, Aadhaar-based authentication (India's national biometric identity system), and Face Recognition APIs within Angular, supporting 1,000+ daily secure employee authentications for NTPC/NSPCL (Government of India enterprises).
- Reduced Time-to-Interactive and First Contentful Paint by ~35% using OnPush Change Detection, lazy-loading, AOT compilation, and custom RxJS state operators.
- Established reusable SCSS component libraries across 5+ client projects, cutting UI development time by ~25%.

Rolling Arrays

Mumbai, India

Associate Consultant

July 2022 – December 2022

- Developed custom UI enhancements within SAP SuccessFactors for enterprise HR clients, ensuring alignment with client workflows and branding guidelines.
- Built and deployed custom frontend modules via SAP BTP Extension Center, extending core Recruiting and Onboarding functionality for enterprise clients.
- Implemented data-binding logic using SAP OData APIs for real-time synchronization between custom extensions and the SuccessFactors core database.

Ayant Software Pvt Ltd

Kolkata, India

Team Leader — Promoted from Associate

January 2018 – February 2020

- Designed and administered technical screening assessments for frontend and full-stack developer candidates, evaluating proficiency across JavaScript, Angular, React, and web development fundamentals.
- Developed structured coding challenge frameworks and competency rubrics with senior engineers, standardizing the technical evaluation process and improving quality-of-hire consistency.
- Led end-to-end developer recruitment – sourcing, screening, and interviewing – and onboarded high-performing engineers into structured training programs, reducing time-to-productivity through clear onboarding documentation.
- Partnered with technical leads and project managers to define evolving skill requirements aligned with software delivery needs.

Key Projects

RCS Enterprise Suite | Office & Co-operative Management System

its4rcs.com

Next.js, React, TypeScript, RxJS, Dynamic Forms, PDF Engine

- High-security management platform for the Head of Co-operatives, built as Lead Developer of a 6-person team: custom email workflows, multi-stage approval system, and RBAC – reduced manual processing by ~40%.

NTPC Sanjeevani + NSPCL Niramaya | Hospital Management System

Angular, Custom CMS, Biometric APIs, Aadhaar Authentication, Face Recognition

- Full HMS with custom CMS and Biometric + Aadhaar + Face Recognition authentication, supporting 1,000+ daily authentications for Government of India enterprises. Live at sanjeevaninew.ntpc.co.in and niramaya.nspcl.co.in.

Arunachal Pradesh GIS Portal | Geospatial Data Analysis

Angular, OpenLayers, GeoJSON, SHP File Rendering

apcis.in

- SHP and GeoJSON parsing with interactive multi-layer visualization for government infrastructure planning.

PHED App | Water Services Utility

Flutter (Dart), Razorpay, CcAvenue, Cross-Platform

Play Store & App Store

- Dynamic form-driven mobile app with integrated secure payment gateways (Razorpay + CcAvenue), deployed live on both Android and iOS stores.

Get All Book | E-Commerce Mobile Platform

Flutter (Dart), Firebase, State Management, Real-time Tracking

Play Store

- Full-scale e-commerce app with cart, wishlist, and real-time order tracking, live on Google Play Store.

ApplyTrack | Full-Stack Portfolio Project

Next.js 15, Node.js/Express, Drizzle ORM, Neon Postgres, Upstash Redis, Docker, GitHub Actions, AWS ECS

In Progress

- Self-initiated full-stack application demonstrating backend and DevOps proficiency end-to-end: containerized services, automated CI/CD pipelines, and cloud deployment on AWS ECS.

Education

St. Xavier's College, Park Street

Master of Science (M.Sc.) in Computer Science — CGPA: 8.1/10

- Best Project Award: COVID-19 Pandemic Prediction using Machine Learning.
